Public Education

Objectives

In all J. E. Boyer Company public education courses, three primary learning objectives are key:

- Share a common knowledge base of the subject matter terminology, concepts, fundamentals, process steps, keys to success, and implementation methodology.
- Provide a forum for your team to interact with teams from other companies in a variety of industries.
- Your team will create a preliminary action plan for getting started or revitalizing your process.

Who Should Attend?

Anyone who participates in the related subject matter area ... the president, direct reports, vice presidents, directors, managers, supervisors, staff, and workers. We work with you to determine the appropriate attendees.

Methodology

Courses are a combination of lecture, interactive discussions, team group activities, and team group reports. All courses are two days.
